

"Timely Solutions Based On Timeless Principles"

Hohbach-Lewin, Inc. is a structural engineering firm based in Palo Alto with branch offices located in downtown San Francisco and Eugene, Oregon. We offer design, seismic analysis and evaluation services to architects, building owners, developers, and general contractors.

Hohbach-Lewin's staff of over 50 includes 26 licensed professional engineers, 17 of which hold structural engineering licenses. The firm has extensive experience with the design and analysis of concrete parking structures. Hohbach-Lewin's engineers have worked on projects that utilize concrete pre-cast, concrete post tensioned, and traditionally reinforced concrete structural systems.

Hohbach-Lewin has been established on the principle that the best solution is the one that most fully incorporates the client's specific needs. At Hohbach-Lewin, we are proud of our ability to creatively apply the appropriate level of technology in a responsive and timely manner.

Hohbach-Lewin offers a "hands on" approach; all our projects receive the benefit of direct involvement and participation of the structural engineer of record. Our dedication to the craft of structural engineering is reflected in the work product we produce.

Our reputation with our past and current grocery store clients for providing superior technical solutions in a timely manner is our most valued asset and the foundation upon which our practice is built.
